MAJOR PROJECT ABSTRACT

1. Title	**:**	**Alumni Networking Platform**
2. Class & Semester	**:**	IV Year I Sem
3. Academic Year	**:**	2026-27
4. Batch Number	**:**	23ITA__

S. No.	**Hall Ticket No.**	**Student Name**
1.	23251A1232	Vanam Sanjana
2.	23251A1251	Pannala Sanjana Reddy
3.	23251A1253	Pokala BhavyaSri

5. Organization / Place	**:**	GNITS (College)
6. Software Requirements	**:**	Operating System: Windows 10/11 Frontend: React.js, JavaScript Backend: Node.js and Express.js Database: MySQL 8.0 Code Editor/IDE: Visual Studio Code
7. Hardware Requirements	**:**	Processor: Intel Core i3 or higher RAM: 4 GB minimum
8. Domain	**:**	Software Engineering
9. Technology	**:**	Full Stack Development
10. SDG	**:**	8 - Decent Work and Economic Growth 17 - Partnerships for the Goals
11. Preferred guides	**:**	1. Mr. B. Vijay Kumar, Asst. Professor 2. Ms. A. Nageshwari, Asst. Professor 3. Ms. M. Sridevi, Asst. Professor

ABSTRACT

The Alumni Networking Platform is a web-based application designed to establish a strong connection between students, alumni, and educational institutions by providing a centralized platform for professional networking and career development. The system enables alumni to create professional profiles, post job opportunities, offer referrals, conduct mentorship sessions, and participate in institutional events. Students can search for alumni based on company, skills, graduation year, or industry, request mentorship, apply for referrals, and communicate through an integrated messaging system. The platform also includes event management, company directories, announcements, and personalized dashboards to enhance user engagement. Administrators are responsible for verifying alumni accounts, managing users, organizing events, and monitoring platform activities. The proposed system strengthens alumni engagement, promotes knowledge sharing, and improves placement opportunities by connecting current students with experienced professionals. It also enhances communication between alumni and the institution while providing a secure, scalable, and user-friendly environment. The platform serves as an effective digital ecosystem that supports long-term collaboration, professional growth, and institutional development.

Keywords: Alumni Network, Mentorship, Career Guidance, Job Referrals, Professional Networking, Student Portal, Event Management, React.js, Node.js, MySQL.
